

The International IgA NEPHROPATHY (IgAN) Prediction Tool

Information for patients & care givers

- **The IgAN Prediction Tool predicts at the time of diagnosis of IgAN the chance of worsening kidney function in the future**
- **Your kidney specialist can use the Prediction Tool with a web-based calculator or App**
- **The IgAN Prediction Tool uses information from the testing which was done by your kidney specialist at the time of your kidney biopsy**
- **The IgAN Prediction Tool should not be used for children with IgAN**
- **The IgAN Prediction Tool works for many adults with IgAN – but not all of them**

WANT MORE INFORMATION?

**If you are a patient with IgAN or a care giver
please discuss the IgA Prediction Tool with your kidney specialist**
